books, they may be selected. The difficulty is that they are not forthcoming.

**Mr. Joseph Pettah.**—If a direction is given tothe writers by the Government they will include this also.

**Mr. I. N. Menon.**—Now it comes a question of issuing instructions by Government. I would like to consult the Government before committing myself. I never expected that this would come. I have nothing personally against it.

*The resolution was withdrawn with leave of the House.*

## 41. Rural Industrial School for the Avanoor Group Panchayat.

**Mr. P. Kumaran Ezhuthassan.**—Sir, out of the 30 villages that constitute my constituency many are without any facilities for industrial education and Avanoor group Panchayat which consists of 4 big villages represented to me that an industrial school is absolutely necessary in the place. It was that request from the people which I found to be a reasonable one, on consulting a good many people there, that induced me to table this resolution. I also understood when I was travelling with the Industrial Inspector the other day that papers have gone to him to make inquiries regarding the desirabilities and the possibilities of having an Industrial School there. It strikes me that it is absolutely necessary to have one. Therefore I place this resolution before this House.—"This Council recommends to the Government to start a Rural Industrial School in any one of the villages constituting the Avanoor Panchayat."

**Mr. T. K. Nayar.**—I second it.

**Mr. I. N. Menon.**—President, Sir, as the Hon'ble Member himself knows the Inspector has reported that he met the Hon'ble Member and he has written to me to say that he has promised again to see the Hon'ble Member to fix the location of the School. Government have always stood for the expansion of industrial education and the present idea is to introduce vocational education even in ordinary schools. So the demand for an industrial school in a place which suffers from want of industrial education will have the encouragement of Government. The only point is the location of the School. I would take this opportunity of observing that if this request had come earlier it could have been disposed of at once. The funds at our disposal this year have been expended because two schools have been already started. So even if the location is fixed it will have to stand over till the next educational year.

*The resolution was withdrawn with the leave of the House.*

**Mr. P. Kumaran Ezhuthassan.**—The resolution is to pressupon the Government the necessity for opening a Central Ayurvedic Hospital in the State.

**Deputy President.**—Since the Medical Officer is not here, I think it is advisable to postpone this resolution for the next meeting when he is expected to be here. He is expected to answer for the Government side.

**Mr. P. Kumaran Ezhuthassan.**—So this will be carried over to the Agenda of the next meeting?

**Deputy President.**—This resolution, I think, will never lapse according to the latest amendment to the Standing Orders.

**Mr. I. N. Menon.**—But if the Hon'ble Member does not move the resolution?

**Dr. A. R. Menon.**—Are you in a position to meet our arguments? The gentleman in charge of the Department is not there. Therefore the blame should not be with us in not moving it, because Dr. Rao is absent.

**Deputy President.**—As the Government Member is not here, this may be carried over to the Agenda of the next Council as a special case.

**Mr. C. J. Mathew.**—The rules do not provide for it.

**Mr. P. Kumaran Ezhuthassan.**—Since this is an important resolution and since I find that the Hon'ble Member in charge of Medicine is not here to answer the relevant questions that might be raised during the discussion, I move under Standing Order No. 26 that this meeting do stand adjourned.

**Mr. T. K. Nayar.**—I second it.

*The motion was put to votes and carried.*

*Thus the remaining resolutions stood adjourned.*

## Adjournment of the Council.

**Deputy President.**—Before adjourning this meeting, I have to thank all Hon'ble Members both on behalf of the President and of the Deputy President for their kind co-operation in bringing down the proceedings to a favourable and amicable termination. Of course, about the number of questions answered, this is the first meeting, and I shall reserve it to the last. We have two more meetings of the session this year. Now I adjourn the meeting *sine die.*

*The Council was adjourned at 3.45 p. m.*

C. J. MATHEW,
Secretary to the Council.
